Quality Kiosk

Round 1

Merge two arrays using merge sort

Write program eg

  USA(all characters in uppercase)

  usa(all char in lowercase)

  Usa(only first char in uppercase)

 Usa=USA=usa-> return true

 uSa=uSA=usA->return false

tell me about your project

open pom xml

why we write dependency

how jpa repository implemented

Round 2

Run the project

do you know about stream api

lambda write on eclipse

angular router-outlet

angular app-root why where we defined it
