Name : Kalyani Sarwade   CCPP ID : _____   Date : _____

Rave Technologies

I^st Round :

Aptitude test

- Quantitative – 20 ques   Mid-level to High   (please prepare well ques were tough)
- English – 20 ques   Easy to Mid
- Qualitative – 10 ques   Easy to Mid

IInd Round :

Technical + Managerial Round

Mostly they will see confidence and communication.
Keep smiling througout your interview.
Have confidence about what you answer.

Q Tell me about yourself.

Q Descibe yourself in one word   (you should have the proof to support)

Q what is primary key and foreign key.?

Q Are you interested in testing or development ?

Q Which technology do you like the most ?

✿ Know your resumé well, they can ask anything from it.

Q Tell me about your family.

Puzzle :

Q using 5 match sticks create something which will have maximum traingles

Q1. cheking current dir — pwd.
   creating files   — touch {A..z}.
   creating dir foodir — mkdir /tmp/foodir.
   copying files   —   cp ./* /tmp/foodir.

Q2. changing working dir to foodir —
   creating dirs   — mkdir {0..9}
   moving files inside dir5   — mv {A..z} 5
   removing dirs   — rmdir {0..9}
   Error: the system will be unable to delete the dir 5 because it is
      not empty.
         To delete a directory using rmdir command, it should be
      empty.
   o/p: Rest all dirs will be deleted except 5.

Q3. listing all running processes : ps   , ps -ef
   when the ps command is executed, the first column shows PID
   (process id) of the processes.

Q4. when more is used with any command it has to read the file
   beforehand.
   when less is used it does not require to pre read the file,
      hence execution , • head -15 /etc/passwd. > /tmp/passwd
                      • tail -15 /etc/passwd > /tmp/passwd.

Q 1.

$y = \$((\$y\%4))$
   if [y -eq 0]

Q5. date > date.dat.
      ls -l > list.dat.

then
      echo " $ year ...

   else
      echo " $ year.
